RE: Possible Employment

Dear Hiring Professional,

With the Industry in the slump it is in, and so many Landmen unemployed, you have the option to “cherry pick” your candidates for employment. With that being said, I feel very confident that I am more than qualified and that my ambitions, ability to adapt and learn quickly, experience, tract record, and overall skillset will exceed your company’s expectations, resulting in promptly & correctly completed assignments, and a highly satisfied Client.

As my resume indicates, I have the background and experience our industry demands and your company needs. I possess 10 years of progressive experience as a Petroleum Landman in research, lease negotiations, drill-site title, conflict resolution, multiple computer programs, and more!

My professional history also includes here recently after the Oil & Gas Industry crash, the position of Client Service Supervisor within a very large nationwide Healthcare company, in which I was promoted to within 2 months of starting. Again, I feel I would make a valuable addition to your company and rest assured, if you choose to interview and hire me, you will not be disappointed!

As stated above, I have attached my resume for your review and I look forward to speaking with you regarding any available positions. Have a blessed day!

Sincerely,

Patrick Johnson
